Communication

PROJECTS

Luxury Nepal — Travel App UI/UX

Figma, Prototyping, User Flows

Designed a destination discovery and itinerary planning app celebrating Nepal with custom user flows and interactive prototypes.

Purito — Skincare App UI

Figma, Mobile UI, UI Design

Created a clean mobile interface featuring skincare type quizzes, product discovery, and ingredient tracking.

Audely — Mobile App UI

Figma, Mobile UI, Prototyping

Designed a sleek mobile application with custom micro-interactions and interactive high-fidelity prototypes.

Fresh Bakey — Food App UI

Figma, Prototyping, Mobile UI

Crafted a warm, user-friendly bakery ordering and delivery mobile interface with complete checkout flows.

Nipuna Prabidhik Sewa — Web Designs

Figma, Web Design, E-Commerce UI

Designed both a professional corporate website and a supermarket e-commerce dashboard with product listings and checkout flows.

MoodDiary — .NET Web Application

.NET, C#, ASP.NET, HTML/CSS

Built a journaling web app that helps users log daily moods, write logs, and view interactive emotional trends over time.

Redesigning QMB — Mobile UI Redesign

Figma, UI Design, UX Auditing

Performed layout redesign on mobile screens to improve visual hierarchy, typography, and user retention metrics.

AI Spam Detection Filter

Python, Jupyter Notebook, ML, NLP

Trained a machine learning model to classify messages and emails as spam or ham using Natural Language Processing (NLP).
